How to configure PayUMoney on your store with PayUMoney as an available Payment Gateway (Store Partners) option?

Please follow the below steps to configure your store with PayUMoney as an available Payment Gateway –

- (1) Go to the Payment Settings and select PayUMoney as your Payment Gateway.
- (2) Usually, there are 3 requirements that you need to furnish –
 - a) The Merchant ID / Merchant Key – Whatever be the name, you are supposed to enter the Merchant Key provided by PayUMoney here or test merchant key provided by PayUMoney in case you want to go in the testing mode.
 - b) The Salt – Please enter the Salt provided by PayUMoney or test Salt provided by PayUMoney in case you want to go in the testing mode.
 - c) Mode – There are usually 2 options –
 - i. Test / Demo – Select this mode when you have entered test key and salt provided by PayUMoney. You can run a successful transaction using PayUMoney in the test mode using the test Credit Card details also provided by PayUMoney. You can run as many transactions as you like for testing. Please note that everything else will be like live mode except that the money doesn't get deducted.
 - ii. Live / Production/Real – When you wish to go live and when you are using the live key and salt, you should select this mode and save the settings. Your Payment Gateway will be ready to collect Payment from your customers.
- (3) Save the Settings.

If you face any difficulty in the configuration, please do email us at techsupport@payumoney.com or give us a call at 0124-6624956 or 0124-6624970 (10:00 am – 7:00 pm Mon - Fri)
